No Thru Trucks and South Kings Highway (continued from page 1)

When asked for data on the number of trucks involved, VDOT provided data from a study of trucks on Memorial Street collected on March 11, 2009 from midnight to midnight. A total of 49 trucks passed the counting machine at 3353 Memorial Street. George Alloway indicated that the count might over-report normal truck traffic if it was done during the time construction was taking place on Memorial Street.

Ron McHugh cited numerous problems with the study that appeared to violate VDOT standard operating procedures. He particularly noted that truck traffic was being diverted from streets with extremely low accident rates to South Kings, that had a significantly higher accident rate.

The Mount Vernon-Lee Chamber of Commerce representative particularly objected to the restriction being set on Harrison Lane and Lockheed Blvd.

In a letter to the attendees after the meeting, Supervisor McKay indicated that he would try to have some of the streets removed from the list of restricted streets.
